## Uniden bcd396xt programming software

FreeSCAN, the award-winning Freeware program for programming the Uniden SC230, BC246T, UBC3500XLT, BR330T, BCD396T, BC346XT(C), BCD396XT, BCT15X, BCD996XT, BCT15 and BCD996T, BCD996P2 public safety scanners (The 436 & 536 will not be supported). FreeSCAN allows to download and uploading programming, remote control the scanner, log hits, and supports printing out of systems and groups. It will run on Windows XP, Vista, Windows 7 & 8. Why should you use FreeSCAN? There are many reasons to use this great Freeware program. Here are some: 11-in-1 support. FreeSCAN supports 11 scanners (see above), so managing multiple scanners is easy. There is only one file format eliminating the need to convert between formats, and handy features (such as not uploading digital channels to analog models) make using it a snap. FreeSCAN isn't made in a vacuum. It's design is largely influenced by those in the scanner community and its meant to reflect the needs of both new users and experts. The recognized most easy to use scanner software available, yet still powerful. The BCD436HP and BCD536HP are unsupported and will never be supported. Features Import frequencies using EZ Grab, the revolutionary system that's designed to import large lists of frequencies with PL tones and descriptions intact from a variety of sources such as the web, Excel, or other scanner software. UASD Import RadioReference Import: With a Premium Subscription to RR, you can download frequencies and systems directly from the RR database to the program and then your scanner. See the screen shots for more information. CSV Export Duplicate frequency and TGID finder/automatic remover. Automatic channel name justifier Automatic frequency filler Print out your systems, groups, and quick keys Automatic Scanner Optimizer. This feature will actually analyze your scanner's programming, bit by bit, and make recommendation on what can be done to improve scanning speed and conserve memory. With a click of a button, the Automatic Scanner Optimizer will optimize your programming for you. Statistics view - lets you see how much scanner memory would be used before you upload. FreeSCAN is the only software that can print out a handy, pin-it-on-the-wall quick reference sheet showing all systems, groups, and quick keys on one handy sheet. Scanner Control lets you connect your scanner to your computer and control it from within Windows Records audio from your scanner and automatically saves recoding as individual .MP3 files. Files are automatically split up into directories and file names are fully customizable. Intelligent managements of your system quick keys. And lots, lots more... Videos These videos have been made by a FreeSCAN user and demonstrate how to import data from RadioReference Conventional System: Trunked System: Butel ARC XT is THE preferred and best selling programming software for the Uniden XT series, ARC-XT-PRO adds powerful data logging, digital audio recording and a fantastic bandscope, ARC-XT supports the following scanner models: BCD396XT, BC346XT, BC346XTC, BCD996XT and BCT15X. ARC-XT includes the most versatile and most feature rich editor available on the market. ARC XT V2 is due out in Q2 2015! ARC-XT combines the best of 2 worlds! With ARC-XT you can directly access (\*) the RadioReference.com Database and import over 9000(!) trunk and conventional systems directly into your scanner! QuickKey Overview: 'Drag and Drop' your systems/sites or groups in QuickKeys. ARC XT can import ARC246/ARC996/ARC396/ARC15 system files. ARC-XT is fully compatible with the new Radioreference webservice. Built in decimal hexadecimal converter Bandplan Editor: change the default step and mode settings per band. Also included are 3 European preset bandplans. Handy tools menu Coming in V2.0: new GPS lookup utility with maps. V2.0 will be released Q2 - 2015 Copy/paste groups between systems, building new systems was never this easy! Read data directly from the RadioReference Database, 'browse' for local trunk systems and let ARC-XT do the programming! 'intelli upload': Replaces systems that are stored in your scanner without having to reset your scanner first! ARC-XT will never reset your scanner! ARC-XT-PRO also includes full PC Virtual Control and a very enhanced recorder with 'no loss' digital recording technology and data logging. ARC-XT-PRO Intelligent Data Storage recorder: wav files are automatically stored in folders based on system/group/date/time. ARC-XT-PRO wav files are stored per frequency or talkgroup for easy playback. ARC-XT-PRO includes a fantastic bandscope option. ARC-XT-PRO includes a Tone Out frequency logger. Don't have a serial port? ARC-XT also works with the Uniden USB-1 cable. ARC-XT supports the following Uniden scanner models: BC346XT(C), BC346XTC, BCD396XT, BCD996XT and the BCT15X. IMPORTANT: ARC-XT DOES NOT work with the BCD996T / BCT15 / BC246T models! IMPORTANT NOTICE FOR VISTA/WIN7 USERS: If you use the Uniden USB1 cable you must install this specific Uniden USB1 driver else the software may not communicate with your scanner! Windows XP/Vista/ Windows 7 / Windows 8/8.1 , minimum 1024x800 video, 512 RAM, free serial or USB port (USB requires Uniden USB-1 cable). Driver Installer for USB-1 cable You must run this installer prior to plugging in the USB-1 cable. This installer creates the following driver on your system: v2.0.0.19 for Win98SE/ME/v2.0.2.1 for Win2K/XP/2003 (XP Logo Certified) Special Scanner Software 5 FOR 1 SPECIAL FOR XT Uniden Scanners Quickly and Easily Program these Four scanners: Uniden BCD396XT, BC346XT, BCD996XT and BCT15X\*\* Plus get the RTS Software as a bonus, see how below. FREE EXCLUSIVE BONUS: Don't miss this 5 software deal for the price of one! This package includes the ARCXT Software which programs all the above scanners plus when you order through this page you will receive a FREE bonus: The Radio Traffic Saver (normally sold for \$29.95 alone) and the Classic 1990s Scanner-Radio File Collection of over 700 files... \*\*Not for BCD996T / BCT15 / BC246T. This is for the XT scanners not the regular T version, find the software for those HERE Works with all of these: If you have one of these, then you need this software. ARC XT is THE preferred and best selling programming software for the Uniden XT series, ARC-XT-PRO adds powerful data logging, digital audio recording and a fantastic bandscope! ARC-XT support the following scanner models: BCD396XT, BC346XT, BCD996XT and BCT15X. ARC-XT includes the most versatile and most feature rich editor available on the market. ARC-XT combines the best of 2 worlds! With ARC-XT you can directly access (\*) the RadioReference.com Database and import over 9000(!) trunk and conventional systems directly into your scanner! QuickKey Overview: 'Drag and Drop' your systems/sites or groups in QuickKeys. Built in lookup utility to find Latitude & Longitude based on US address or zipcode ARC XT can import ARC246/ARC996/ARC396/ARC15 system files. Built in decimal hexadecimal converter Bandplan Editor: change the default step and mode settings per band. Handy tools menu Copy/paste groups between systems, building new systems was never this easy! Read data directly from the RadioReference Database, 'browse' for local trunk systems and let ARC-XT do the programming! 'intelli upload': Replaces systems that are stored in your scanner without having to reset your scanner first! ARC-XT will never reset your scanner! ARC-XT-PRO also includes full PC Virtual Control and a very enhanced recorder with 'no loss' digital recording technology and data logging. ARC-XT-PRO Intelligent Data Storage recorder: wav files are automatically stored in folders based on system/group/date/time. ARC-XT-PRO wav files are stored per frequency or talkgroup for easy playback. ARC-XT-PRO includes a fantastic bandscope option. Don't have a serial port? ARC-XT also works with the Uniden USB-1 cable. ARC-XT supports the following Uniden scanner models: BC346XT, BCD396XT, BCD996XT and the BCT15XT. IMPORTANT: ARC-XT DOES NOT work with the BCD996T / BCT15 / BC246T models! See the main page to find software for those. Windows XP/2000/Vista, minimum 1024x800 video, 512 RAM, free serial or USB port (USB requires Uniden USB-1 cable). Comparison sheet ARC-XT Basic & Pro, go for the Pro and get more features, more functionality, and the Bandscope/Waterfall display. Option ARC-XT-BASIC (\$39.95) ARC-XT-PRO (\$69.95) Multi scanner support Yes Yes Enhanced Editor for conv.trunk channels Yes Yes Import ARC246/396/996 files Yes Yes Bandplan Editor Yes Yes Multi Trunk site programming Yes Yes Virtual Control No Yes RadioRef Import Yes Yes GPS US address lookup utility Yes Yes Enhanced Virtual Control No Yes Data logging/history No Yes Bandscope No Yes Waterfall Display No Yes 'no loss' Harddisk Audio Recording No Yes Closecall/Subtone logging No Yes Screenshots(click an image to see the full size version): Find latitude and longitude based on US street address or zipcode: WHAT DO YOU GET? Order your Programming Software now and receive it by immediate download plus the below Free Bonus FREE BONUS: This is an exclusive offer that is only available when ordering through this website. When you order your ARC programming software here, you will also receive absolutely free: Radio Traffic Scanner - This is a must have tool for every scanner listener. Never miss important radio traffic again. Log all traffic for replay anytime, instantly replay the last 15, 30, or 60 seconds, archive dispatch traffic. See it HERE This program normally sells for \$29.95 by itself but with this special offer you can receive a free copy with your programming software purchase. CLICK Below to order and receive your free bonus Step 1: Place your order for ArcXT ArcXT PRO version \$69.95 plus Free Bonus Psst! Find Out Why You Should Go With The Pro Version! ArcXT Basic versions \$39.95 plus Free Bonus Step 2: Claim your Free Bonuses HERE Step 3: Install and ENJOY! Check out these Scanning Related Books
